## HIRE PURCHASE SYSTEM

There are different methods of sales, i.e., it may be cash sales or credit sales. In case of cash sales the buyer pays money and the seller transfer the property to the buyer immediately. In case of credit sales, the buyer pays the money later, but the seller transfer the property to the buyer at the time of sale itself.

Another method of sales is hire purchase sales, here the buyer pays only a part of the money initially and take possession of the property, the balance will be paid in installments, on payment of last installment, the seller transfer the ownership of the property to the buyer. Until then, the seller is the legal owner of the property.

In case if the buyer fails to pay any installment, the seller is having the right to take back the possession of the goods and also forfeit the amount already paid by the buyer.

Normally, the price of the property under hire purchase system is higher than the cash price, since, the cost is paid in different installments, the seller will charge interest.

The above sales governed under the Hire Purchase Act 1972 which came into force with effect from 01/09/1973.

## Important terminology:

Hirer / Hire purchaser - the person who purchase property under Hire purchase system.
Hire vendor - The seller who sells property under the hire purchase system.
Hire purchase price - the price at which property sold under the hire purchase system.
Down payment - the amount paid initially by the hirer.
Cash price - the price at which the same property purchased for cash in the market.
Hire charges - the difference between hire purchase price and cash price / the total Interest payment
Installment money - the amount every installment the buyer pays alongwith interest

## Rights of the hire purchaser/ hirer:

The hirer can terminate the agreement, after giving 14 days notice in advance to the hire vendor. However, he should have settled all the dues and if any excess money is paid, which he can get refund from the hire vendor.

The hirer can also make preclosure, after giving 14 days notice in advance to the hire vendor about his intention to pay the balance amount in full settlement. In such cases, he is eligible for rebate
$2 / 3 \times$ (HP charges $\times$ no of installment due/total installment)

## Rights of the Hire vendor:

When the hire purchaser fails to pay any installments,
The vendor can terminate the agreement
Repossess the goods
Retain the amount already paid by the hire purchaser as charges for enjoying the property so far.

When permission of the court is required to take possession of the goods
When the HP price is less than Rs.15000/- and 1/2of the price has been paid.
In other cases, $3 / 4^{\text {th }}$ of the price has already been paid by the hire purchaser.

## Limitation on hire charges

The hire charges should not exceed $20 \%$ of the installment price or
$\mathrm{SC}=(\mathrm{CP} \times \mathrm{R} \times \mathrm{T} \mathrm{L} / 100$ ) which ever is less.
SC = Statutory charges
$C P=$ Cash Price.
$R=$ Rate of interest $10 \%$ or more as determined by the government.
$\mathrm{TL}=$ Time limit as determined by the government.

## Hire purchase trading Account

When the hire vendor sells goods of lesser value under the hire purchase system, it is not easy to maintain accounts for all hire purchasers. In such cases, the hire vendor will open hire purchase trading account and enter all hire purchase transactions. Another method, followed in this case is stock and debtors system.

## Accounting treatment:

The accounting treatment consist of how to record the transactions in the books of hire purchaser and hire vendor and how to compute the interest and cash price out of the installment price.
In the books of the Hire purchaser:

| Transactions | First method | Second method |
| :--- | :--- | :--- |
| Assets purchased under HP <br> system | Asset A/c. (cash price) <br> To Hire vendor A/c. | No entry |
| When down payment is made | Hire Vendor A/c. | Asset A/c. |

|  | To Cash/bank A/c. | To Cash/Bank A/c. |
| :--- | :--- | :--- |
| When interest due | Interest A/c. <br> To Hire vendor A/c. | No entry |
| When installment due | No entry | Asset A/c. <br> Interest A/c. <br> To Hire vendor A/c. |
| When installment paid | Hire vendor A/c. <br> To Cash/bank A/c. | Hire vendor A/c. <br> To Cash/bank A/c. |
| Depreciation on Assets | Depreciation A/c. <br> To Assets A/c. | Depreciation A/c. <br> To Assets A/c. |
| Transferring interest and <br> depreciation | Profit and loss A/c. <br> To Interest A/c. <br> To Depreciation A/c. | Profit and loss A/c. <br> To Interest A/c. <br> To Depreciation A/c. |

In the books of the Hire Vendor:

| Transactions | First method | Interest suspense method |
| :--- | :--- | :--- |
| Goods sold under HP system | Hirer A/c. (cash price) <br> To H P sales A/c. | Hirer A/c.(HP Price) <br> To HP Sales A/c.(cash <br> price) <br> To Interest Suspense A/c. |
| When down payment is <br> received | Cash / bank A/c.. <br> To Hirer A/c. | Cash / bank A/c.. <br> To Hirer A/c. |
| When interest due | Hirer A/c. <br> To Interest A/c. | Interest suspense A/c. <br> To Interest A/c. |
| When installment is received | Cash / bank A/c.. <br> To Hirer A/c. | Cash / bank A/c. <br> To Hirer A/c. |
| Transferring interest | Interest A/c. <br> To Profit and Loss A/c. | Interest A/c. <br> To Profit and Loss A/c. |

Problem No. 1 The hire purchase price of an asset is Rs. 120000 and the cash price is Rs.100000/- which is payable in eight equal installments. The purchaser after the completion of $3^{\text {rd }}$ installments wants to close the HP sales by making one time payment. What is the amount of rebate available?

## $2 / 3 \times$ (HP charges $x$ no of installment due/total installment)

Rebate $=2 / 3 \times(20000 \times 5 / 8)$ Rs.8333/-
Under hire purchase system, the important aspect is the calculation of interest
Problem No. 2 The madras company purchased a machine from Bombay Machine company on hire purchase agreement on $01^{\text {st }}$ Jan. 2006 paying cash Rs.100000/- and agreeing to pay further installments of Rs.100000/- each on $31^{\text {st }}$ December of every year. The cash price of the machine is Rs.372500/- and the interest charged at the rate of $5 \%$ p.a. The madras company writes off $10 \%$ every year of the value of machine on the reducing instalment system.

Open necessary accounts in the books of both the companies.
First aspect is the calculation of interest amount in the installment. Here all information is given

| Particulars | Cash price | Interest | Installment |  |  |
| :--- | ---: | :--- | ---: | ---: | ---: |
|  |  |  | Cash <br> price | Interest | Total |
| Cash price | 372500 | $5 \%$ |  |  |  |
| Less: Down payment | 100000 |  | 100000 |  | 100000 |

Problem No. $2 \times$ limited purchased from Y limited a machine under the HP system on 01/01/2008. Its hire purchase price Rs.95000/- and cash price Rs.86800/-

Rs.5000/- paid on delivery
Rs.10000/- paid after 4 months
Rs.15000/- paid after 6 months
Rs.30000/- paid after 9 months and
Rs.35000/- paid after 12 months.
Calculate the amount of interest in each installment.
Total Interest $=$ Hire purchase price - cash price 95000-86800 $=8200 /-$
Interest for first installment $\quad=8200 / 10 \times 4=3280$
Interest for second installment $=8200 / 10 \times 3=2460$
Interest for third installment $\quad=8200 / 10 \times 2=1640$
Interest for fourth installment $=8200 / 10 \times 1=820$
Total Interest $=\mathbf{8 2 0 0}$
Problem No 4. On $1^{\text {st }}$ January 2005, Ram limited purchased a motor car from yogesh limited on hire purchase system. The cash price of which was payable as Rs.120000/ down and the balance in 3 equal annual installments together with interest @ $10 \%$ p.a. The amount of cash installments including interest was Rs.176000/-. Depreciation was to be provided at $20 \%$ p.a on the reducing balance.

At the end of the $3^{\text {rd }}$ year the motor car was sold for Rs.3,00,000/-. Show motor care and vendor account.
In the given sum cash price is not given the installment amount includes interest also. We have to segregate the interest portion from the installment amount Last instalment paid Rs. 176000 ( This include cash price and interest, therefore let us assume, this 176000 is a combination principal and interest)
$176000 \times 10 / 11016000$ therefore, in the first installment interest is Rs.16000and the balance cash priceRs. 160000
Second installment paid Rs.176000+160000
$336000 \times 10 / 11030545$
First installment $=145454+160000+176000=481454 \times 10 / 110=43768$
